# BLINKLISTS

Were written during a bout with madness in early 1982. The method was: write a #, write any word, blink my mind, write any word, write the next #... Project culminated in a series of huge collages of colored words on black photo-backdrop paper (5'x7' average), and altering 8 used blackboards + classrooms in a University building.

**THIS BOOK CONTAINS** two typewritten blinklists, scattered words, The Passions of Don Quixote (epic), Influx Blinklists (docu), and original collage.

Edited by the author + X. Funkhouser.

Richard Loranger
